Competencies

Presales, Consulting and Delivery
Product Implementation.

Implementation Methodologies

Our consultants are proficient in delivering Storage & Security solutions. They work closely with customers in delivering value by virtue of their rich business process experience, product knowledge and live project experience.

Our consultants, trained by the Principle Vendors reduce the implementation risks very heavily and ensure that planned ROIs are achieved. The implementation includes developing a solution across the organization including

- Training
- Integration with other systems in the computing environment
- Post Implementation support

Our Principle Vendors

Computer Associates

Computer associates international Inc.is a leading worldwide provider of solutions and services for the management of IT Infrastructure, business information and application development.

CA's solutions address a uniquely extensive range of management challenges across the full range of heterogeneous distributed and mainframe platforms found in today's enterprise environments., They are organized in to six powerful brands Unicenter for enterprise management, Brightstor for storage management, eTrust for security management, Allfusion for application life cycle management, Advantage for data management and application development, and Cleverpath for portal and business intelligence.

LEGATO a division of EMC

EMC and LEGATO are making it easier and more efficient for our customers to manage and protect all of their information-throughout the information lifecycle, from inception to archive to disposal. EMC and LEGATO together will create the ultimate information lifecycle management company...helping our customers get the maximum value from their information at the lowest total cost, at every point in the information lifecycle.

VERITAS

With revenues over \$1.5 billion in 2002, VERITAS Software ranks among the top 10 software companies in the world. Through its award-winning and market-leading products focused on business efficiency and continuity, VERITAS provides the building blocks for Utility Computing.

Credentials

For a leading Media Company, CITeS is on the verge of commencing the process of implementation of Network and Systems Management solution. This would include the complete Network and Systems Management, IT Assets Management and Application Performance Management Modules.

For a leading Lighting Equipment Manufacturer, CITeS would be shortly involved in a Backup & Disaster Recovery Solutions implementation. This solution would work on a centralized architecture for three manufacturing locations on a Radio-link and VPN connectivity.

For a leading manufacturer of Communication and Information Systems for Defence, CITeS is in the process of installing and implementing Security Solutions for the Gateway and Clients. This also involves Antivirus solution for a network of over 30 users.

Our Value Proposition

- Domain Expertise
- Technology Pedigree as partnering with the leading Global Vendors.
- Financial Strength
- Flexible Approach
- Multi Geography Delivery Capability
- Experienced Management Team
- Competitive Cost
- Quality of Services: undergoing ISO : 9000 Certification
